

YELLOW PINEES BIG DEMAND

Supply on Hand at the Mills
Growing Less and Prices
Are Rising.

New Orleans, La., Jan. 27.—The expansion of activity in the yellow pine market that has developed since the opening of the year has grown more apparent in the last week and inquiries by buyers, which showed less than the usual diminution during the period just before and after the holidays, are becoming more numerous and more definitely assuring a permanence of the increased demand which characterized the situation during the latter part of 1935.

While the prospect of further improvement in price to make the mills hesitate to load up with orders far ahead, they have in the last few days been inclined to accept orders more freely. Prices, however, have maintained their full strength, and on many items have advanced.

Stocks Are Less.
Reports show that stocks were substantially less on January than they were the year before, with the greater portion covered by orders already accepted and with supplies sufficient to cover the current volume of business only a very few weeks ahead.

There is no material change in the export situation, which, in spite of advancing charter rates for vessels, shows a volume of movement well sustained. The latest report from the government account in Europe is one of 2,500,000 feet placed a few days ago by a representative of the Belgian government.

Cuba is a strong factor of the export trade to this side of the Atlantic, its takings being of record volume and at prices 1.5 to 2.00 cents several dollars higher than prevailed a year ago.

Big Orders on Hand.
The report on the order file of southern pine mills, as issued by the Southern Pine association, shows but slight variation from the situation prevailing in the preceding week, when the large increase in orders brought them close up to the production. This report shows orders on hand at the beginning of the week 19,237,000 feet, equal to 17,567,000 feet, on the basis of the average loading of 39,600 feet during December. Orders received during the week were 415,400 feet, equal to 415,400 feet. Shipment during the week was 439,600 feet, or 43,960,000 feet, leaving unshipped orders for 19,129 cars, or 17,567,000 feet.

A Little Blossom To Delight the Home

When it is known that in the near future the home is to be blessed with a new arrival the first thought should be "Mother's Friend."

This is an external remedy gently applied to the stomach muscles. It makes them firm and pliant, they expand naturally with food and drink, it removes from the nerves those influences which are responsible for much of the pain incident to the period of expectancy. It is for this reason that much of the distress such as morning sickness is avoided. All prospective fathers should see to it that the expected mother is provided with a bottle of "Mother's Friend."

Four directions are simple. Get it at any drug store. It is applied by the expectant mother herself. It penetrates deeply and affords quick and splendid relief in a most gratifying manner and reflects a physical benefit to the nervous system. Just try this—moisten a cloth with a little Dandine and carefully draw it through your hair, taking one small strand at a time. This will dissolve the hair of dust, dirt and excessive oil and in a few moments you have doubled the beauty of your hair.

Resident beautifying the hair at once. Dandine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, never stopping itching and falling hair.

But what will please you most will be after a few weeks—see when you will actually see new hair—fine and downy at first—yet—really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get 25-cent bottle of Knowlton's Dandine from any drug store or toilet counter, and just try it. Save your hair! Beautify it! You will say this was the best 25 cents you ever spent.—Advertisement.

Every particle of dandruff disappears and hair stops coming out.

Draw a moist cloth through hair and double its beauty at once.

Your hair becomes light, wavy, curly, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandine hair cleanse." Just try this—moisten a cloth with a little Dandine and carefully draw it through your hair, taking one small strand at a time. This will dissolve the hair of dust, dirt and excessive oil and in a few moments you have doubled the beauty of your hair.

Warner's Safe Diabetes Remedy

In diabetes the nutrition is impaired—this results in an excess of sugar in the blood, and the failure of the food to nourish, hence a gradual wasting away while eating well.

Symptoms of this disease are increased thirst, excess of urine, emaciation and dry skin often with sweetish odor.

"I had diabetes and was given up by all doctors of my town. I took Warner's Safe Diabetes Remedy and am now perfectly well." Rev. Alvin H. Norton, Cashmere, Wash., R. F. D. 2.

Sold by all druggists or sent postpaid on receipt of price, \$1.25. Sample sent if requested. Warner's Safe Remedies Co., Dept. 236, Rochester, N. Y.

NOTES BY MAIL CHAMBER OF COMMERCE

Chamber of Commerce Members Must Vote in Person For Directors Friday.

Scores of ballots have been received at the chamber of commerce through the mails. As the bylaws require the votes to be cast in person between 10 o'clock and 6 o'clock Friday, these votes will not be counted but the voters will be notified. On one of these mail order ballots all of the names had two were scratched from the list of candidates.

There are 27 names to be voted on in the election of 15 directors to compose the board for the year. The electors and judges appointed for the election, to count the votes are: George W. Theisen, George Rathjens, Carl J. Hellerstedt, E. L. Michaelson and J. S. Curtis.

The revised list of nominees is as follows: H. Anderson, H. M. Andrews, H. T. Bowie, Dr. W. L. Brown, Harry Burwell, Otis Coles, H. W. Ellis, R. L. Farrar, F. R. Fletcher, E. E. Hines, E. M. Hurd, P. R. Kephley, Walter Kohlberg, J. W. Lorentzen, James L. Marr, E. E. Orr, J. E. Paddock, W. G. Roe, A. E. Rowland, Charles R. Russell, W. H. Shelton, R. E. Thompson, M. Schwartz, E. L. J. M. Wray, Dr. C. C. Young, Joe Zeiman.

U. S. Has 144 Field Guns, Germany Has 12,000, Live Stock Men Told At Fort

"You are watching four of the 144 guns composing the entire light artillery of the United States army," shouted the official announcer at the military maneuvers given for the visiting livestock men at Fort Bliss Wednesday afternoon. "Germany has 12,000 of these guns," added the announcer, putting in a good kick for preparedness with the hundreds of cattle-men present at the maneuvers.

This exhibition by the light battery of the Fifth field artillery, in command of Capt. R. W. Briggs, was one of five exercises given by the border brigade for the entertainment of the cattle-men. A drill by a war strength battalion of the 20th infantry, in command of Maj. George D. Moore, was given first to show the strength of a battalion when in the field under actual war-time conditions. A drill by a battalion of the Seventh infantry was given to music.

A competitive drill by selected sections of the mountain batteries composing the Fourth field artillery, as also given. This included packing, unpacking, and firing. This was won by battery F, commanded by Capt. Albert V. Faulkner. The last drill was given by Capt. George D. Moore, leader of the Eighth cavalry. This drill included jumping, riding, saluting and presenting arms while jumping hurdles and other difficult feats of horsemanship.

The maneuvers were arranged by Gen. John J. Pershing, commanding the brigade and had as his guest Dwight B. Heard, president of the Livestock Association.

PANHANDLE COMMITTEE HAS MEETING WEDNESDAY

The executive committee of the Panhandle and Southwestern Stockmen's Association met Wednesday afternoon in the directors' room at the chamber of commerce to hear the reading of the last audit of the association's books.

The report, read by an old one, having been read at a meeting in December. However, a number of the committee members were not present at the previous meeting, and it was read. The audit was approved. After the reading of the audit financial matters were discussed, also plans for the coming convention in Albuquerque, March 7, 8 and 9.

President J. H. Nations of El Paso, presided. Other members of the executive committee present included C. L. Ballard, Roswell, N. M.; L. C. Britte, Santa Fe; J. H. Jenkins, Corona, N. M.; T. D. Lowe, Sierra Blanca, Tex.; W. L. Tooley, El Paso; John M. Wyatt, El Paso; E. C. Houghton, El Paso; W. N. Pence, Sierra Blanca, Tex.; Lee Bevins, Amarillo, Tex., treasurer.

DAILY RECORD

Building Permits.

To Jesus Vasquez to build a brick house on Stevens street; estimated value \$250.

Deaths Filed.

North side of Jackson, between Luckland and Lowell—A. C. Wagner to H. R. Parsons, lots 11, 12, block 25, Grand View addition; consideration \$500; January 24, 1936.

D. B. HEARD BE REELECTED

Ike Pryor Withdraws From Presidential Race; Cheyenne After Convention.

Dwight B. Heard of Phoenix, Ariz., will be reelected president of the American National Livestock association at the meeting this afternoon. The name of Col. Ike Pryor, of San Antonio, has been withdrawn and there will be no opposition to Mr. Heard, it is understood.

The plan now is to elect Mr. Heard to the office for the year. Mr. Pryor will receive the nomination at the 1937 convention. Col. Pryor will probably be reelected vice president this afternoon. John W. Springer, of Denver, will be reelected treasurer, and T. W. Tomlinson, of Denver, secretary. There may be some changes in the second vice presidents, of which there are six.

Kendrick Honored.
Gov. J. R. Kendrick, of Wyoming, who led the fight for the Wilson administration against the drastic Mexican resolution, will probably be named as second vice president. C. M. O'Donnell, of Salt Lake City; Willis Hildebrand, of Walla, Mont.; Isaac Bauer, of Meeker, Colo., and W. J. Todd, of Maple Hill, Kans., will also be named as second vice presidents. Sam Cowan, of Fort Worth, will probably be selected attorney for the association.

Heard President Eight Months.

Mr. Heard has been president of the association only eight months, and there is a precedent that every president of the association should be allowed two years. John W. Springer, of Denver, the first president in the six successive terms. He was followed by F. J. Hagenbarth, who held two years. Mr. Hagenbarth, who is now president of the National Wool Growers' association, was succeeded by Murdo MacKenzie, who held two terms. H. A. Jastro followed, holding three terms. He succeeded Mr. Heard.

There is a general feeling in the convention that Col. Pryor is entitled to the presidency by reason of his long service in the association. His general qualifications for the position and the fact that Texas has never had a president in the field under actual war-time conditions. A drill by a battalion of the Seventh infantry was given to music.

Cheyenne Leads.
Cheyenne, Salt Lake City and Denver are in the race for the next meeting of the American National Livestock association. Cheyenne is the only city that has made any extensive campaign for the honor of entertaining the cattle-men in 1937, but Salt Lake, it is stated, will be placed in nomination, as well as Denver.

Col. Ike Pryor, of San Antonio, received a telegram from Harry N. Burhaus, secretary of the Denver convention association, stating that Denver and Colorado would be pleased to entertain the next convention. This telegram will be read at the meeting. It is understood that the Denver men at the convention are not asking for the 1937 meeting.

Executive Committee Meets.

At a meeting of the executive committee held at the Paso del Norte, Wednesday afternoon, the resolutions presented at the regular session Thursday morning were read and adopted. These resolutions were drafted at a meeting of the resolutions committee earlier in the afternoon.

INDIANA WOMAN HERE.

Mrs. James Karsell, of Bloomington, Ind., arrived in El Paso Thursday afternoon on her way to Tucson to visit her daughter, Mrs. John White, wife of treasurer, White of the Southern Pacific lines of Mexico.

Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

How the Remedy for Catarrh Was Discovered.

By the new method the cure is quick and effective. Local remedy applied directly to the inflamed membrane.

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the cause of the trouble has been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he could not prevent the trouble beginning all over again.

On test cases, he could completely remove all signs of Catarrh from nose and throat, but in a few weeks they were back.

WOMEN'S NIGHT GOWNS—Made of nainsook and crepe. Semi-made garments. Special, each, at 69c

MADE SOFA PILLOWS—Excellent for floor or porch pillows. Completely made of linen crash, and embroidered in white, black and colors. With or without fringe. Regular 50c values. 25c

SUBREPEFES BE REELECTED

President Seed Crushers' Association Says Tax Should be Repealed.

Oleomargarine is as pure as butter and the tax which is placed on this product should be removed, R. W. Couch, president of the Texas Cotton Seed Crushers' association, told the American National Livestock convention Thursday. He urged a resolution asking congress to repeal this federal tax and give oleo a square deal.

He said in part: "For the cotton seed oil millers of the south, whom I have the honor to represent, I would have it especially understood that in asking the passage by you of the resolutions in reference to the repeal of the tax on oleomargarine, which I am assured will be here presented, and in demanding the repeal of the present burdensome and unfair laws governing the manufacture and sale of oleomargarine, we are asking neither of you or of congress any favors or special privileges either for ourselves or the products they manufacture."

Oleo Is Pure.
"In the face of the most rigid scientific investigation and the most persistent efforts of the advocates of the law to prove the contrary, there has been established beyond all controversy the entire healthfulness and highly nutritive quality of oleomargarine, named the poor man's butter. And why should it not be both healthful and nutritious, since it is composed entirely of pure beef tallow, the oil of cotton seed or peanuts and the highest grade of refined vegetable oil, being only in order that it may present a more pleasing and appetizing appearance, being colored in exactly the same way, and with the same material, that is used in coloring the best and highest priced butter. Butter is not only unadulterated and pure, but it is sold at a price from two to five times that of its humble but pure and wholesome competitor."

Dairy Food.
"But I would again repeat that the cotton oil mill man has no war to make upon the dairy cow or upon any product of hers, but on the contrary, being himself in the manufacture and production of cotton seed meal and cotton seed hulls, the manufacturer of the best dairy feed on earth, and therefore, closely allied with the dairyman as he is with the raiser of every kind of livestock; interested in his welfare and anxious for his prosperity and ready and willing to contribute to it in all his power."

Cotton seed flour is now on the market as a rival for wheat flour. A specimen of what people will see it will do in the way of a fruit cake was shown Wednesday afternoon by Mr. Couch.

Cotton Seed Hich.
"Cattleman complain that cotton seed is becoming so high they cannot feed their stock with it," said Mr. Couch. "The truth of the matter is that cotton seed and its by-products are entering into the human food chain at a time when it is not far distant when the human food market almost exclusively."

"As a new standard the oil is the basis of oleomargarine; while the flour can be produced so much cheaper than wheat flour that people will see it from economy and then from preference. Cotton seed flour may be produced at a price for as low as \$1.10 per cwt., while wheat flour is \$4.40 per cwt."

"I am not personally interested in any mill or flour," said Mr. Couch. "I am only interested in the results. So far Texas and the south has been the only place where cotton seed flour is produced and that is at Schulenburg, Tex. There the output is 25 barrels a day."

Fifty yards of new rugs and carpets are turned out every second during ten working hours every day at the mills of Philadelphia, where more than a third of all the carpets woven in the United States are made.

Embroidery And Ribbon Remnants

NEW, clean and fresh Embroidery Remnants, lengths left from the white sale; all kinds at HALF REGULAR PRICES.

Also Ribbon Remnants of all kinds, in all colors and widths, will be offered here Friday while they last, at GREATLY REDUCED PRICES. Sale on first floor.
